

Greatest-of-all-time!  
You have changed my classroom!  
Loved doing the activities it will  
help me do them in my class

**Really amazing,  
relevant to all  
ages and engaging  
- Thank You!**

A totally enjoyable day,  
I look forward to applying  
it in my classroom!

I learned more in the  
session – that I will  
actually use –  
than any  
other conference!

Today was an  
**effective, user-friendly  
way to incorporate  
differentiation in the  
mainstream  
classroom.**

An engaging  
session that makes  
differentiation easy  
to transfer to  
the classroom;  
so many of  
the strategies are  
straight forward  
to prepare,  
use and assess.

I've learned  
many new  
ways of bringing  
ideas together  
and implementing  
concepts.  
What a  
wonderful  
session.

Modeling all the new  
strategies helps  
understanding the ideas and  
leads to implementation of those  
strategies in our classroom.

The day was full  
of learning and the  
experiences were varied.  
The interactive sessions  
were very useful.

The session helped me  
understand differentiation  
deeper by involving me and  
practicing the theory.

A day well spent!  
I have lots to think about  
when approaching  
upcoming lessons.
